Tena koe e Beth

Thank you for your email of 6 August 2019 regarding electric vehicles and power sources.

As part of the development of the Clean Car standard and Clean car discount strategy, your email will be forwarded to the Ministry of Transport as a submission as the comments you have made are extremely valuable to this process.

I will also provide the Minister with a copy of your email for her information.

Ps. Information about the strategy can be found on the Ministry of Transport's website at: <https://www.transport.govt.nz/multi-modal/climatechange/electric-vehicles/clean-cars/>.

Nga mihi

[REDACTED] Hekeretari Matua | Office of Hon Julie Anne Genter | Associate Minister of Transport

Level 6.C Bowen House | Parliament Buildings | Wellington | New Zealand

Subject: electric cars

Goodafternoon,

I have been wondering for a while and the subject does not seem to come up during discussions about getting the majority of cars on the road electric . Sounds great but how is the country going to cope with increased power use as over the years I can remember times nz having power shortages and if every one changed to electric cars will the power grids cope. And to upgrade to more power sources surely would cost a lot for consumers and the country.

Thanks for reading this

Beth
