25 June 2024

Tēnā koe 

### Your request

I refer to your email dated 27 May 2024, requesting the following under the Official Information Act 1982 (the Act):

*“Could you please provide an up-to-date breakdown of expenditure in 2023/24 including:*

- travel expenses*
- contractors*
- consultants*
- learning and development*
- Te Tiriti training*
- Te Reo training*
- Any other sensitive expenditure*

*Where possible, please break this information down by provider including a summary of the service provide, the reason that a particular provider was chosen and all correspondence outlining the decision-making process?”*

Please find enclosed tables outlining the expenditure under each requested category. The period covered in these tables is from 1 July 2023 to 30 April 2024. In response to your request for costs associated with *any other sensitive expenditure*, I have included the amount spent on gifts and catering and entertainment. It includes the provider's name, summary of the service provided, and payments made between 1 July 2023 to 30 April 2024.

Individual contractor and consultant names have been withheld under Section 9(2)(a) of the Act to protect their privacy.

On 12 June 2024, we contacted you advising that the second part of the request for all correspondence could not be responded to without substantial collation and research. We advised you that we would be able to provide you with information relating to the standard procurement process at the Ministry. You confirmed that you were happy with this approach. Please see the Ministry's procurement process outlined below.

### Information relevant to the response

The Government Procurement Rules, Principles of Government Procurement, the Government Procurement Charter and other good practice guidance, guide all procurement activity at the Ministry.

The Ministry uses an All of Government travel management service provider – the provider recommends the best fit flights, accommodation etc based on availability, timing, and price.

The Ministry must use the All of Government Panel created for common services like engaging contractors to temporarily fill vacancies, or complete time limited project work or sourcing consultants to engage in projects, undertake research or provide expert advice.

Currently this is the Talent Acquisition Services or the Consultancy Services. Talent Acquisition Services offer agencies specialist recruitment services from a panel of experienced providers. Consultancy Services offers specialist consultancy advice and competitive solutions from a panel of experienced consultancy providers across 11 sub-categories.

All contractor engagement or consultancy work requires the responsible manager to determine the right balance of availability, capability, and value for money in accordance with the Ministry's Procurement Policy. If the piece of work is extremely specialised, exemptions are used to select a non-panel provider. All exemptions are to be approved at the Chief Executive level. Every engagement is approved at the appropriate level in accordance with the Ministry Delegations framework.

You have the right to seek an investigation and review of this response by the Ombudsman, in accordance with section 28(3) of the Act. The relevant details can be found on the Ombudsman's website [www.ombudsman.parliament.nz](http://www.ombudsman.parliament.nz)

The Ministry publishes our Official Information Act responses and the information contained in our reply to you may be published on the Ministry website. Before publishing we will remove any personal or identifiable information.

Nāku noa, nā

Hilary Penman  
**Manager, Accountability and Correspondence**

**Table 1: Travel Expenditure (International) between 1 July 2023 – 30 April 2024**

The Ministry approves an international travel plan for each financial year, which considers both the financial and carbon emission costs of travel. International travel decisions are guided by the following principles:

- Employees only travel when necessary to fulfil the obligations of the Ministry or its Minister
- Only the minimum number of travellers should be approved
- If online options are available, these should be the preferred option
- If travel is the best option, the Ministry must be able to afford that travel within both its financial and carbon emission budgets.

Accommodation will be reasonable both in terms of standard and price. Individuals on business should be conscious of this and generally book hotels up to four star. In deciding what is reasonable, factors to consider are availability; the safety and security of the individual, the proximity of the accommodation to the place of work and where others in the party may be staying (if part of a delegation).

**Table 6: Other Sensitive Expenditure between 1 July 2023 – 30 April 2024**

Gifts - The Ministry's policy is to provide gifts for the following:

- External parties: The Ministry gives gifts to external organisations or individuals as part of a visit or otherwise where the exchange of gifts is a normal cultural practice.
- Staff: It is acceptable to provide flowers for the death of, or serious injury or illness of, an employee or their immediate family or the birth of a baby of an employee. The Ministry does not generally contribute to staff leaving gifts.

Gifts Purchased From	Expenditure (ex. GST)
Badgeworks Limited	\$1,612

## Catering and Entertaining

- Entertainment and hospitality (entertainment) can cover a range of items from tea and biscuits to catering, such as meals and alcohol. It also includes non-catering related items, such as entity-funded entry to a sporting or cultural event and social club contributions.
- The amount spent on entertainment will be reasonable and commensurate with the benefit received by the Ministry or the public. While the type of function may be reasonable, an excessive cost may render the expenditure unreasonable overall.
