Every time data is reused, more value is realised

Shared Data
(limited potential reuse between limited parties)

Closed Data
(limited potential reuse within organisation)

Open Data
(unlimited potential reuse)
Smarter, more efficient investment in better outcomes:
- Social
- Environment
- Agriculture
- Science

Informed Participatory Governance

Innovative (& sustainable) new products and services

Efficient, automated interaction with government

Solving real-world Problems

Local & Global Solutions

Open Policy Models

Data Analytics

Government Data

Permission Framework (Legislation & Policy)
- Data Governance
- Data Management

Social Licence

Closed | Shared | Open

Enabling Public-Private Partnerships

Government as a Platform

API's

Open Code

Business rules (machine-readable)

Machine Learning

Blockchain
