Transport Outcomes of 2018

**Inclusive access**
Enabling all people to participate in society through access to social and economic opportunities, such as work, education, and healthcare.

**Economic prosperity**
Supporting economic activity via local, regional, and international connections, with efficient movements of people and products.

**Healthy and safe people**
Protecting people from transport-related injuries and harmful pollution, and making active travel an attractive option.

**Environmental sustainability**
Transitioning to net zero carbon emissions, and maintaining or improving biodiversity, water quality, and air quality.

**Resilience and security**
Minimising and managing the risks from natural and human-made hazards, anticipating and adapting to emerging threats, and recovering effectively from disruptive events.
Refresh the Domain Plan and Research Strategy

At a minimum
• Apply the 2018 Transport Outcomes
• Update the completed recommendations

Proposed additional scope to the documents
• Further prioritise and programme a small specific set of Domain Plan recommendations
• Move Research Strategy focus from strategic challenges to specific research questions
• Develop approaches to funding
