Dear Sir/Madam

I forward this message in support of the GAA IQ Civil Aviation Bill submission (attached). The document is extremely well considered and written. If considered impartially and given due consideration, I believe the comments and views expressed will assist provide a well balanced and meaningful basis for discussion and collaboration with industry, and ultimately provide the basis for a safe and economically efficient sector.

Given New Zealand's relative isolation internationally and high use of aircraft of all types domestically, a robust modern and efficient aviation sector is essential to the economic prosperity of the country. A well written, consistent and modern Civil Aviation Bill is a foundation for this environment. Consistency with the HSW legislation and a well-balanced Just Culture policy are core components of a safe modern efficient aviation system.
