Tena koe e Duncan

Thank you for your email of 23 July 2019 regarding the electric bike subsidies. We've had many others ask the same question so as part of the development of the Clean Car standard and Clean car discount strategy, your email will be forwarded to the Ministry of Transport as a submission and provided to the Minister for her information. Nga mihi

Subject: Electric bikes subsidy

Hi. I'm basically in support of your new policies to subsidise more eco-friendly cars and discourage the purchase of stupid, wanky, gas guzzlers. However, why no subsidies or support of electric bikes? Electric bikes for commuting (NOT electric mountainbikes though, which are a load of bollocks) are far better than electric cars, but still very expensive for most people. They are becoming more popular and more fashionable, but a bit of extra government support could give them a huge boost.

Cheers, Duncan
